

Strategic Planning Evolution

- MITA Requirement: *“establishes the statewide mission, goals, and objectives for the use of information technology”*
- Current Limitations
 - Limits itself to only MITA requirements
 - No link to state program strategies: jobs, education, efficient/effective government
- New Approach
 - Broader description of IT operations and impact
 - Establishes how IT strategies will support state program strategies: jobs, education, efficient/effective government
 - Defines the impact of IT investments on stakeholder value
 - Introduces metrics/performance measures

Strategic Planning Timetable
